DynamicArray 循环报错

```
ClassMethod TestArr()  
{  
    s arrRow = [1,2,3,4,5,6,7]  
    s size = arrRow.%Size() - 1  
    for i = 0 : 1 : size {  
        s ii = (size / size) * i // ?size??, ???  
        w arrRow.%Get(ii), !  
    }  
    q ""  
}
```

如上,cache循环中有 size 报错, iris不报
